PROJANDSPA

GRUNDFOS

About us | *We will implement your ambitious project.*

"From an idea to execution,,

which is the motto that guides us in carrying out projects that often start as an idea, but always ends in their successful execution!

We have been trusted by customers from:

Chemical industry

Power and heating industry

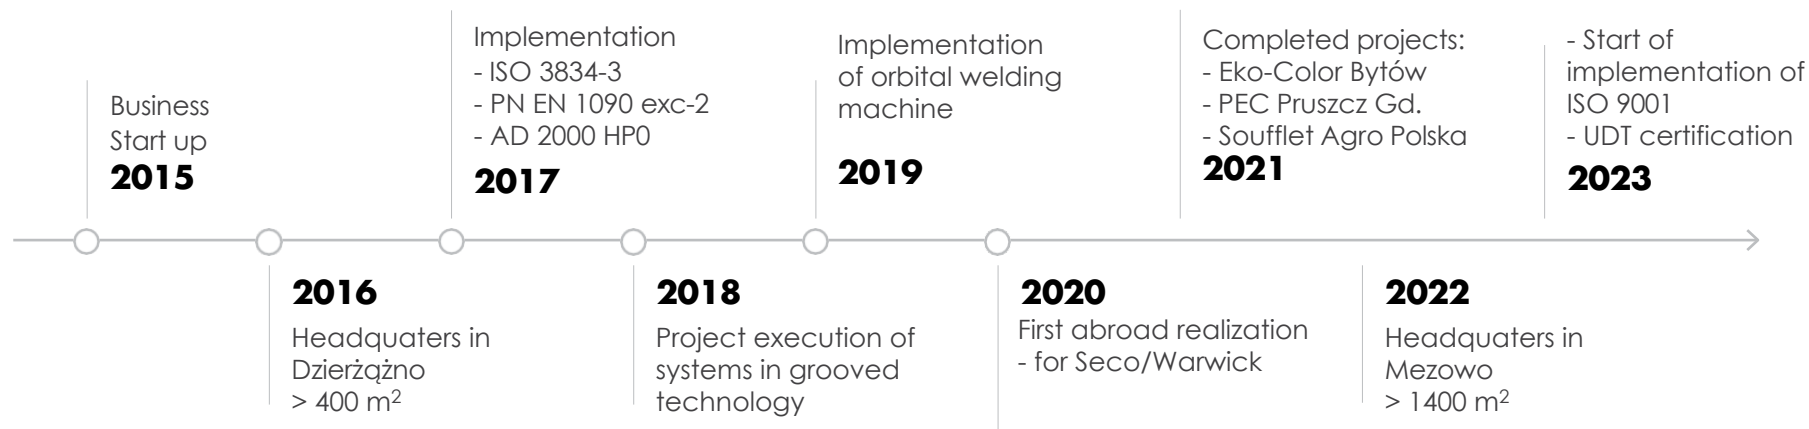

Papermaking industry

Cogeneration and trigeneration

2

Milestones:

Quality

WPS, WPQR is a daily routine for us.

Certificates:

- UDT authorizations - manufacture, modernization and repair of pressure equipment under technical supervision dedicated to flammable, corrosive and toxic substances.
- Welding technology acc. to EN ISO 15614-1.

Implemented:

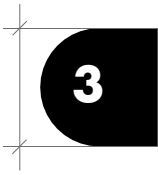

- ISO 3834-3
- PN EN 1090-exc2
- AD 2000 HPO

Staff qualifications:

- Welders certified acc. to ISO 9606-1
- Fitters certified to:
 - lift truck operation
 - operation of mobile elevators
 - assembly and placement of scaffolding

Professional equipment

- Welding machines: TIG / MAG / Orbital
- Grooving machine

Industrial systems

*Ready-made project or to be made?
You can be assured that your project will be completed*

Technological installation

Any type of media:

- Safe
- Toxic
- Flammable
- Corrosive

Solutions:

- Product distribution lines
- Systems for maintaining process parameters:
 - Pressure
 - Temperature
 - Flow
 - Quality of the medium
- Recovery and output of thermal power including heating substations
- Cooling of machinery and process lines

We offer:

Project

Execution and supervision

Insulation

Automation

Service and support

In cooperation:

Handling the process of improving energy efficiency- From the identification of energy-efficient investments, through their design and implementation, to their financing.

Industrial energy audits - identification of savings

Zero-emission (energy) strategies

Design concepts and projects for energy-saving investments

Financing (ESCO) and execution

General contracting

Diagnostics and monitoring

Services

*Short service stoppage?
We will minimize installation integration time.*

Modernizations and repairs:

- Industrial installations
- Pressure vessels

We offer:

Comprehensive support

Execution and supervision

Experienced team

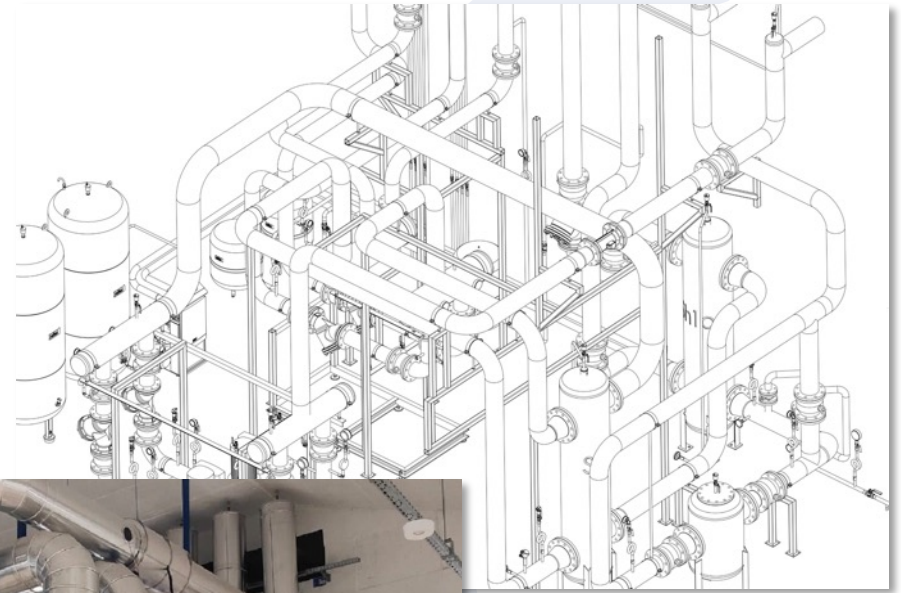

Necessary equipment

UDT certifications

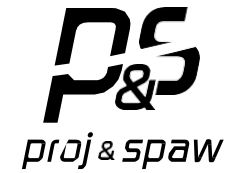

Work during stoppage time

Modular solutions

*Do you have little space?
We will find a solution!*

Skids:

Comprehensive, easy-to-install and easy-to-service solutions based on containerized or common frame housing.

Stabilization of process parameters

- Pressure
- Temperature
- Flow
- Quality of the medium

We offer:

Concept and design

Automation

Quick execution time

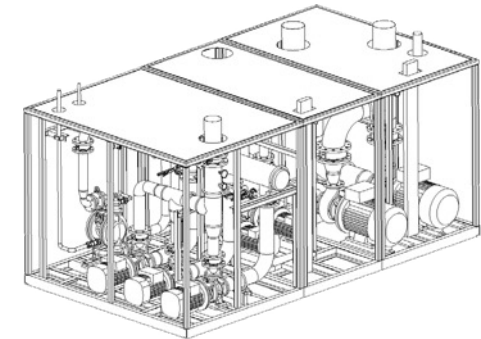

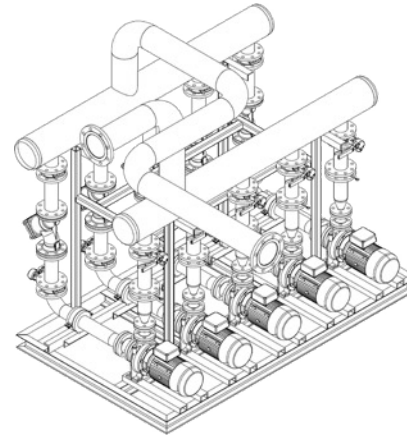

Delivery and installation

Short installation time

Support and service

References:

Rockfin Sp. z o.o. / [Implementation for the refining industry](#)

The work was carried out in accordance with the scope of the contract and within the agreed timeframe. The team performing the task consisted of qualified and experienced workers, and the company had the necessary technical resources.

Tomasz Rynkowski, Sales Director

Indorama Venture Poland Sp. z o.o. / [Chemical industry](#)

Despite the short turnaround time, the entrusted task went successfully at every stage of its implementation. The Projandspaw company showed professionalism and reliably completed signed agreement in the agreed time.

Remigiusz Drązkiewicz, Maintenance manager

Eko-color Sp. z o.o. / [Chemical industry](#)

Projandspaw showed great flexibility and the ability to respond quickly to our needs, taking into account that the work was carried out on a functioning plant.

Zygmunt Krzysztof Dyks, Executive Director

Seco / Warwick S.A. / [Implementation for the aerospace industry](#)

We confirm that Projandspaw, as a company providing services in the field of technological installations, has the proper equipment and technical resources, as well as experienced staff, which guarantees high quality and timeliness of the work performed.

Rafał Komin, Deputy Director of the vacuum department for implementation.

EL Professional / [Implementation for the heating industry](#)

Projandspaw has fulfilled the work entrusted to it in a professional manner and therefore reliable, and, most importantly, on time.

Mariusz Maszota, Owner

Execution:

Cogeneration with heat pumps with a total capacity of 3.3MW

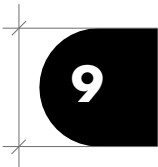

Location:
Pruszcz Gdański

Industry
Ciepłownictwo

Scope of work:

- Delivery of components
- Installation:
 - heating water
 - heat pumps
 - natural gas
 - condensate drainage
 - cooling
- Implementation of insulation and NDT tests
- Participation in the commissioning of the installation

technology:

Welded

Material:

Carbon steel

Size of pipelines:

DN20 ÷ DN250

Execution:

Machine cooling in a powder coating plant

Location:
Bytów

Industry:
Chemical

10

Scope of work:

- Delivery of components Installation:
 - Cooling
- Insulation execution
- Participation in the commissioning of the installation

Technology:

Welded

Material:

Stainless steel

Size of pipelines:

DN20 ÷ DN200

Execution:

Power output from cogeneration -
2.2MW

Location:
Poznań

Industry:
District heating

Scope of work:

- Development of workshop documentation
Delivery of the necessary devices for the installation
- Execution of the installation together with the required armature and devices
- Execution of insulation
- Participation in the commissioning of the installation

Technology:

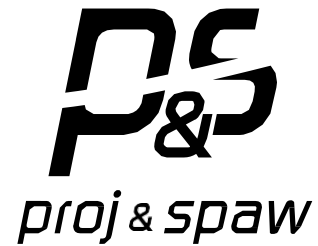

Welded

Material:

Carbon steel

Size of pipelines:

DN20 ÷ DN250
